"Next, you need to have an ipad"
Shows Ipad

("Then, an apple pencil to actual draw the
frog"
Shows apple pencil

("Now, buy an expensive art app, the one we
will be using is called
procreate ")
Shows Procreate

Each shot = 1-5 sec

Step #1

+ | Title Text Here | **Medium Shot** — Describe the step.

+ | **Close Up** — Demonstrate how to complete the step.

+ | **Close Up** — Complete the step.

shows Ariane with Ipad

"first get all of your ma-

shows close up of canvas

-terials, open up procreate

(continue close up of canvas)

select a canvas, now choose the pen that

is easiest to draw with for you"

Step #2

+ | Title Text Here | **Medium Shot** — Describe the step.

+ | **Close Up** — Demonstrate how to complete the step.

+ | **Close Up** — Complete the step.

Here, we're going to be sketching the frog.
*insert clip of iPad & pencil

Close-up First, sketch out a blob and add guidelines for the other frog characteristics. *clip recorded as it happens

Now, fully draw out the other details such as the eyes, legs, and mouth. *clip recording as it happens

Step #3 ⌄

Medium Shot
Describe the step.

Close Up
Demonstrate how to complete
the step.

Close Up
Complete the step.

" Now, create another layer, turn down the previous layer's
* turning down opacity

opacity; go over the lines with the new layer. Once that is done
* lineart being done

fill the insides of the frog with green.
* frog being colored

Then add another layer, fill in
the parts of the frog that should
be shaded, then turn down the
opacity"
