

# Beavers

Look at  
that face

# What's Their History?

**The history of the beaver is that people really wanted fur hats and beaver coat was a great option for that. They were a huge part of the fur trade as so many people and companies traded them.**

# Why Is It Important?

**The beaver is important to Canada as it is a symbol of the sovereignty of Canada. The beaver is also very recognizable to foreigners because it's so well known around the world. Since they've been so helpful to Canada's development I don't know where our economy would be without them.**

# Could This Symbol Represent You As A Canadian?

Look at him go!

**I think that as a Canadian I could be represented as a beaver because they just seem like they'd be very hardworking I feel like they'd also be sarcastic at times which I find funny.**
