

# Characterization of You

## Reflection

---

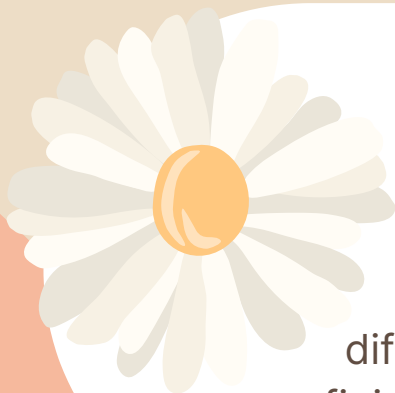

### Appearance

I have blond hair and I tend to wear more comfy clothes with sometimes wearing jeans. I usually have my hair back and also I sometimes wear it down

### Thoughts

my thoughts vary from a bunch of different things whether it's oh I need to finish this school assignment to what to wear to

### Thinking

I feel like in this English course I am really good at thinking of things to add to my short stories or add to my article write up so I feel like this would be a good thing to say I'm good at.

### Surroundings

My surroundings are my friends and family who treat me very well. I am also surrounded by people at my school and at my church and youth group
