A.

# Ayda's reflection

I joined leadership this year, which was one of my best decisions. I gained a lot of volunteer hours that I could not have gain if I was not in this class. In this class I learned about so many different cultures around the world. I learned how to organize an event, or even how to manage them. I made so many new friend, while gaining experience for my future. Two things that I am really proud of are the experiences, as well as learning how to organize an event.

# Ayda's most memorable moment

My most memorable moment was when me and my friend did 40 hours of volunteering for a Persian festival. we had so much fun even though we got really tired ( we volunteered for five days, each day 8 hours). we cried, argued, and laugh on does days, and all of those stuff are really precious for me. I leaned how to stand up for my rights while being calm and having patience.

# How can we inspire others to join MC leadership in future

In our opinion, for next year we can have more fun event every month( each month 5 events) or we can also have some games during lunch time. We can also provide some field trips for the people who are new to school and provide some information about MC leadership class during the trip.

# What is next?

We may not be in MC leadership next year but we both hope that it keeps growing and do well in future. For the future, the students can reach out to new students to join MC leadership. We both tried our best to help and encourage other students this year and we both tried as hard as we could and we plan to continue this in future. We hope that more students join in future and gain the same experiences that we got.

# Amir's reflection

Think about what you have learnt today.

In MC Leadership, I learned about teamwork, being organized, and understanding others. We did fun stuff like hosting tea parties, helping out on Halloween, and giving breakfast to students in the morning. What I'm most proud of is how we worked together as a team, solved problems, and made a real difference in our community. Seeing how we helped others made me realize how important it is to care for people.

# Amir's most memorable moment

My favorite memory from this year was when we volunteered for Halloween at the middle school. It was so much fun to see all the kids in their costumes and having a great time. Helping out and seeing the joy on their faces made me feel really happy. It was a special moment that reminded me of how good it feels to help others and be part of something bigger.
