

CPHAZ Symposium Speakers and Contact Info

Key Speakers and Presenters – Joint Session & Session 1

Key Speaker: Dr. Susan Kilborn sue.kilborn@vetoutreach.org	Dr. Susan Kilborn is a veterinarian and boarded internist with a DVM from the WCVU (University of Saskatchewan) and a DVSc in clinical studies from the University of Guelph. She is the Ottawa regional director, One Health coordinator, and leadership for Community Veterinary Outreach, a registered Canadian charity that provides pro bono preventive veterinary care and human health and social services to people experiencing homelessness and housing vulnerability.
Key Speaker: Dr. Heather Murphy heather.murphy@uoguelph.ca	Dr. Heather Murphy is a Tier II Canada Research Chair in One Health and recently joined OVC in September 2020. She brings with her 17 years of experience in the field of water and health.
Key Speaker: Dr. Samira Mubareka samira.mubareka@sunnybrook.ca	Dr. Samira Mubareka is an Infectious Diseases physician and Microbiologist at Sunnybrook Health Sciences in Toronto and a virologist at the University of Toronto. Her work focuses on viral zoonoses and transmission.
Key Speaker: Dr. Katie Clow kclow@uoguelph.ca	Dr. Katie Clow is an OVC professor and her research focuses on the epidemiology and ecology of vectors, such as ticks, and vector-borne zoonoses in Canada.
Aisha Nankanja ashafaith16@gmail.com	Aisha Nankanja is a Sociologist and a Social Entrepreneur passionate about conserving nature .
Dr. Claudia Cobo Angel ccobo@uoguelph.ca	Claudia Cobo Angel has a Doctor in Veterinary Medicine and PhD in Agricultural Sciences. She has focused her research on epidemiology of infectious diseases and antimicrobial resistance in dairy cattle, with a one-health approach.
Maverick Aradanas maradana@uoguelph.ca	Maverick Aradanas is currently in his second year as a Master's degree candidate in Bioinformatics in the Pathobiology Department. His project is focused on screening virulence genetic determinants in <i>S. suis</i> under the supervision of Dr. Nicole Ricker and Dr. Vahab Farzan.
Dr. Sue Kilborn sue.kilborn@vetoutreach.org	Dr. Susan Kilborn is a veterinarian and boarded internist with a DVM from the WCVU (University of Saskatchewan) and a DVSc in clinical studies from the University of Guelph. She is the Ottawa regional director, One Health coordinator, and leadership for

	Community Veterinary Outreach, a registered Canadian charity that provides pro bono preventive veterinary care and human health and social services to people experiencing homelessness and housing vulnerability.
Jocelyn Rivers jriver@uoguelph.ca	Jocelyn Rivers has diverse background including international development, gender studies, agri-food, animal, environmental, and human health. Her background allows her to create effect solutions around environmental and health issues.
Dr. Tatiana Petukhova tpetukho@uoguelph.ca	Tatiana Petukhova is a recent Statistics PhD graduate from the University of Guelph.
Rebecca Flancman	Rebecca Flancman is a PhD candidate at the University of Guelph, under the supervision of Dr. Scott Weese. Her research focuses on a One Health approach to antimicrobial resistance.
Dr. Britteny Kyle kyleb@uoguelph.ca	Britteny Kyle graduated as a Veterinarian from Ontario Veterinary College in 2009 and worked as an associate in small animal emergency and general practice for several years, before switching her focus to honey bee medicine. Britteny joined the Department of Population Medicine this past fall to earn her Masters degree in Epidemiology with a focus on one of the honey bee bacterial diseases, American Foulbrood.
Dr. Kamal Acharya acharyak@uoguelph.ca	Kamal Acharya is a Veterinarian interested in assessing and addressing health issues at animal-human interface.
Dr. Erin Fraser Erin.Fraser@bccdc.ca	Erin Fraser is a graduate of the University of Guelph and is currently the public health veterinarian at the British Columbia Centre for Disease Control. She is also a clinical assistant professor in the School of Population and Public health at UBC. She has worked on One Health and zoonoses issues for over 20 years as an epidemiologist, public health veterinarian, researcher, and with Veterinarians without Borders-Canada. She is a member of the national and BC's One Health and COVID-19 working group.
Dr. Dorothee Bienzle dbienzle@uoguelph.ca	Dorothee Bienzle is a veterinary pathologist. Her research interests are in infectious and neoplastic diseases of companion animals. She is hoping that the 3rd will be the last wave of the COVID-19 pandemic.
Grace Nichol gnicho01@uoguelph.ca	Grace Nichol is a Master's student in the Department of Population Medicine at the University of Guelph, studying epidemiology and One Health.

Larissa Nituch larissa.nituch@ontario.ca	Larissa Nituch is a Science Operations Supervisor with the Ministry of Natural Resources and Forestry, leading the delivery of the provincial Rabies Research and Control program, Chronic Wasting Disease Surveillance program as well as a variety of other wildlife health projects. She has worked for MNRF for over 13 years in a diversity of roles related to wildlife research and monitoring, operations, and policy.
Dr. Maureen Anderson maureen.e.c.anderson@ontario.ca	Maureen Anderson is one of the Lead Veterinarians - Animal Health and Welfare at the Ontario Ministry of Agriculture, Food and Rural Affairs where she works in several areas bridging animal and public health, including rabies and antimicrobial stewardship, and co-leads the companion animal Ontario Animal Health Network (OAHN).
Dr. Nadine Vogt nvogt@uoguelph.ca	Nadine Vogt is a veterinarian and is currently a PhD candidate in epidemiology at the Ontario Veterinary College. Her research interests include wildlife and zoonoses, and evidence-based veterinary medicine.
Nikola May nikola@uoguelph.ca	Nikola May is a second year MSc student in the Department of Pathobiology. She is also completing a collaborative specialization in One Health. Her research interests include food safety and antimicrobial resistance surveillance.

Presenters – Session 2

Ryan LaPenna rlapenna@uwo.ca	Ryan LaPenna is a first year MSc Student in the One Health Program, within the Department of Pathology and Laboratory Medicine at Western University. His research project focuses on using a One Health approach for rabies control in rural Victoria Falls, Zimbabwe.
Dr. Catherine Belanger cbelange@uoguelph.ca	Catherine Belanger is pursuing a Master's degree in Epidemiology in the Department of Population Medicine. As a Veterinarian she has spent time in emergency practice and government, and has a strong interest in veterinary epidemiology and public health.
Dr. Luke Haydock lhaydock@uoguelph.ca	Luke Haydock is a veterinarian who graduated from Massey University, New Zealand in 2016, and he is

	currently undertaking a Doctor of Veterinary Science at the University of Guelph to specializing in anatomic pathology.
Dr. Grazieli Maboni gmaboni@uoguelph.ca	Grazieli Maboni is a board-certified veterinary microbiologist with a primary interest in the characterization of emerging bacteria, fungi, and viruses. She recently joined OVC Pathobiology as an assistant professor.
Dr. Emilia Gordon egordon@sPCA.bc.ca	Dr. Emilia Wong Gordon is a board-certified shelter medicine specialist who serves as Animal Health Senior Manager for the British Columbia SPCA. She is also an adjunct faculty member with the University of Florida Shelter Medicine Distance Education Program.
Joel Zhang jzhan892@uwo.ca	Joel Zhang is a current Master's student studying One Health at the University of Western Ontario. Under Dr. Francisco Olea-Popelka's supervision, they have been working on research focusing on tuberculosis and zoonotic tuberculosis in developing countries.
Yusuf Amuda Tajudeen Tajudeenamudayusuf@gmail.com	Yusuf Tajudeen graduated from the University of Ilorin in Nigeria, where he studied microbiology. He is now a prospective graduate student of Public Health and Community Medicine.
Dr. Deborah Thomson Onehealthlessons@gmail.com	Dr. Deborah Thomson is the Founder and President of One Health Lessons, an organization that inspires children and adults around the world to value One Health. In addition, she is a member of World Veterinary Association's One Health Education Subgroup, an external member of the United Nations' FAO's One Health Work Group, a One Health Expert Consultant at EcoHealth Alliance, a consultant with the USAID's One Health Workforce-Next Generation Project, a former science policy advisor in the United States Senate. She is also the author of "The Art of Science Communication: Sharing Science with Students, the Public, and Policymakers".
Sydney DeWinter sdewinte@uoguelph.ca	Sydney DeWinter is a thesis-based Master's candidate in the department of Population Medicine at the University of Guelph, with a focus on Epidemiology and One Health. Sydney is currently studying tick distribution and infestation patterns in Canada, with a focus on Ixodes species ticks.
Dr. Emily Robinson erobin07@uoguelph.ca	Emily Robinson is a 2nd year Master of Science candidate in Epidemiology in the Department of

	<p>Population Medicine at the University of Guelph, and is enrolled in the Collaborative Specialization in One Health program. She graduated with a Bachelor of Science in Microbiology, and is now a member of Dr. Katie Clow's research group analyzing the spread of the black-legged tick and associated pathogens, including the causative agent of Lyme disease.</p>
<p>Genevieve Lumsden glumsden@uoguelph.ca</p>	<p>Genevieve Lumsden completed her MSc in the Pathobiology department at the University of Guelph. Her research focused on tick-borne pathogen ecology in Ontario and her interests are all things zoonotic.</p>
<p>Melissa MacKay melissam@uoguelph.ca</p>	<p>Melissa MacKay is a PhD candidate in Public Health, focusing on effective health and risk communication for emerging infectious diseases.</p>
<p>Harveen Atwal harveen.atwal@gov.bc.ca</p>	<p>Harveen Atwal is an undergraduate student studying biology at the University of British Columbia. She has been completing a Co-op with the Canadian Wildlife Health Cooperative for the past 9 months.</p>
<p>Dr. Johanna Sanchez johanna.sanchez@ryerson.ca</p>	<p>Johanna Sanchez is a postdoctoral fellow at the School of Occupational and Public Health at Ryerson University. Her research interests include investigating enteric infection and the effect on health outcomes, particularly in the area of water, hygiene and sanitation.</p>
<p>Kurtis Sobkowich sobkowik@uoguelph.ca</p>	<p>Kurtis Sobkowich completed his Bachelor of Science from Queen's University in 2018 before coming to Guelph to pursue his PhD in Epidemiology. His research focusses on identifying spatial and temporal distribution patterns of parasitic mites in honeybee colonies across Ontario.</p>
<p>Dr. Muhammad Yasir Zahoor yasir1101@hotmail.com</p>	<p>Muhammad Yasir Zahoor is an infectious disease epidemiologist from Pakistan with a special interest in control of zoonotic diseases.</p>
