

Scope and Intent

Aquatic Sciences – Research Across Boundaries will be an exciting forum for the rapid publication of original research from all areas of basic and applied aquatic sciences, including Aquatic Chemistry, Aquatic Ecology, Aquatic Physics, Biogeochemistry, Fisheries, Hydrology, Microbial Ecology, and Water Policy.

Studies from both freshwater and marine systems will be published.

This journal will initially appear quarterly and include three sections:

- Original research
- Reviews
- Water policy

Preference will be given to research papers transcending traditional fields:

- **Research Across Disciplinary Boundaries**
Studies examining interactions between physical, chemical, and biological processes
- **Research Across Environmental Boundaries**
Studies assessing air-water, river-ocean, sediment-water, benthic-pelagic interactions
- **Research Across Spatial and Temporal Boundaries**
Studies across levels of biological organization, from individual cells to whole ecosystems at various spatial and temporal scales

Subscription Information for 2002

Volume 64 (2002), 4 issues per year

Subscription Price

SFr. 598.00

Single Issue

SFr. 178.00

Postage & Handling: SFr. 42.00 / SAL SFr. 54.00

Prices are suggested retail selling prices.

Call for Papers

You are cordially invited to submit manuscripts to this exciting journal. Instructions to the Authors can be found on the Aquatic Sciences Web Page at www.birkhauser.ch/journals/2700/2700_tit.htm

Please send manuscripts to the Editor-in-Chief (see reverse for address).

This journal will be available online.

For more information, please go to:

ISSN 1015-1621 (Printed edition)

ISSN 1420-9055 (Electronic edition)

Aquatic Sciences— Research Across Boundaries

Birkhäuser 

A highly respected, international Editorial Board actively solicits manuscripts, giving preference to those studies that transcend traditional fields. The peer review process will be rapid and rigorous. There will be no page charges for publication, and first authors will receive 50 reprints free-of-charge.

Editorial Board*

Josef Daniel Ackerman, University of Northern British Columbia, Prince George, British Columbia, Canada

Thomas Bernauer, Swiss Federal Institute of Technology Zürich, Zürich, Switzerland

Neil V. Blough, University of Maryland, College Park, Maryland, USA

Andrew Boulton, The University of New England, Armidale, NSW, Australia

Yu-Ping Chin, The Ohio State University, Columbus, Ohio, USA

Patricia J. S. Colberg, University of Wyoming, Laramie, Wyoming, USA

Stuart E. G. Findlay, Institute of Ecosystem Studies, Millbrook, New York, USA

David R. S. Lean, University of Ottawa, Ottawa, Ontario, Canada

Peter S. Liss, University of East Anglia, Norwich, UK

Enrique Macpherson Mayol, Centro de Estudios Avanzados de Blanes, Blanes, Spain

Jean-Marie Martin, European Commission Joint Research Centre, Ispra, Italy

François M. M. Morel, Princeton University, Princeton, New Jersey, USA

Eric Odada, University of Nairobi, Nairobi, Kenya

Kathleen C. Ruttenberg, Woods Hole Oceanographic Institution, Woods Hole, Massachusetts, USA

Jerald L. Schnoor, The University of Iowa, Iowa City, Iowa, USA

Craig Stevens, National Institute of Water & Atmospheric Research, Kilbirnie, Wellington, New Zealand

William G. Sunda, NOAA Beaufort Laboratory, Beaufort, North Carolina, USA

Klement Tockner, Swiss Federal Institute for Environmental Science and Technology (EAWAG), Dübendorf, Switzerland

Lars Tranvik, Uppsala University, Uppsala, Sweden

Alfred Wüest, Swiss Federal Institute for Environmental Science and Technology (EAWAG), Dübendorf, Switzerland

*Additional members to be announced.
