SECTION II – HISTORY OF THE CHALLENGE CUP

INTRODUCTION

The purpose of this report is to identify Canada's most successful amateur soccer clubs in terms of their performance at the Canadian Club Championships (CCC) over the period 1984-2008. During this 25-year period 329 different clubs have appeared at the CCC. 1984 was chosen as the starting point as it represents the first year when the current CCC formula was fully adopted i.e. a truly national competition at one site for each age category (juvenile and senior), as opposed to the Eastern Canada and Western Canada Championships that previously represented the end of the competitive road for Canadian amateur teams in at least some, if not all, age categories.

Every effort has been made to ensure the accuracy of the data, including the proper identification of the Club teams involved, but the report may contain a few errors given the varying quality of the official records of the CSA, the Provincial Associations and the individual Clubs for that period. Any documented corrections will be most gratefully accepted.

I would like to acknowledge the invaluable assistance provided me by Dorothy Hickey of the CSA and thank my Provincial counterparts on the CSA Competitions Committee for their input and careful review of their Province's data.

In 2008 a second and complementary section was added detailing the history of the Association's premier competition, the Challenge Trophy, and its predecessor equivalents since inception in 1913.

The inclusion of this section was made possible by the research painstakingly carried out and maintained by Colin Jose.

R.W. (Dick) Labrom, Montréal, January 2003.

1st Revision: January 2004

6th Revision: November 2008

METHODOLOGY

- In order to determine rankings a point system was used as follows:

<u>Place</u>	<u>Points</u>
1 st (Gold)	10
2 nd (Silver)	9
3 rd (Bronze)	8
4 th	7
5 th	6
6 th	5
7 th	4
8 th	3
9 th	2
10 th	1
11 th	0
12 th	-1

- Categories, other than the Senior Men and Senior Women, are shown as split ages (U-19/18, U-17/16 and U-15/14) to reflect the changes in the age categories that took place in 1993 and 2001.
- When a Club has merely changed its name but has not altered its composition the Club is treated as a single Club. Where a Club has changed its composition (e.g. by merging with another Club or by splitting into two or more separate Clubs), then the resultant Clubs are all treated as different Clubs.
- Where Clubs have an equal number of points ranking priority is given to the Club(s) having amassed those points with fewer appearances.
- References to 'Male Only' or 'Female Only' relate only to the source of the points earned at the CCC and do not necessarily mean that the Club in question is a 'single sex' Club. The references simply mean that all the points earned by the Club at the CCC were amassed by its teams of that gender.
- In order to preserve the integrity of the points awarded historically and to avoid distortion of inter-provincial performance relativities, the participation of 'guest' teams in the CCC (introduced in 2005 to facilitate where necessary the scheduling of certain individual championships) is not reflected in this report e.g. if a 'guest' team finished 10th in a 12-team championship, the 11th team is recorded as having finished 10th and the 12th team as 11th.

Canadian Challenge Cup Competition Finals

The Duke of Connaught, then Governor General of Canada, presented a trophy to the Dominion of Canada Football Association in 1913 to be presented to the national champions. In 1926 that cup was replaced by the F.A. Trophy given to the then Dominion of Canada Football Association by the Football Association of England. The first names of the players are listed where known. However, the newspapers in the years before 1940 often did not print first names.

During 1925 the Football Association in England gave the Dominion of Canada Football Association a new trophy to replace the Connaught Cup. It became known as the Football Association Trophy and was first awarded in 1926. For a while after that the Connaught Cup was awarded to the Eastern champions but at some point in time was stolen and is thought to have been melted down.
